

/hai — Week 1 Report

Sai Pranavi Jeedigunta | Mycroft Project 29

June 29 — July 5, 2026

Hours Log

Date	Activity	Hours
Mon June 29	Addams onboarding, project research, article writing, CRITIQ, HR submission, agreement signing	8.0
Tue June 30	Agreement correction and resubmission to HR	1.0
Wed July 1	HR follow-up emails and project change communication	0.5
Thu-Sat July 2-4	Humanitarians.ai Substack reading — finance and Mycroft project landscape	2.0
Sun July 5	Deep reading — all 33 Mycroft projects, onboarding research	9.5
Total		21.0

Accomplishments

1. Completed full onboarding intake twice

Completed Addams onboarding and produced a CRITIQ-cleared NYT-style article for Boyle Project. When Boyle was paused mid-week, pivoted to Mycroft Project 29, produced a second CRITIQ-cleared article, and completed full PM approval with Shradha Katte within the same week.

2. Researched the full Humanitarians.ai project portfolio

Reviewed all 33 Mycroft projects, the Humanitarians.ai Substack publications covering finance and AI, and the Mycroft GitHub repositories to understand the project landscape and identify the right contribution area.

3. Completed all HR onboarding and compliance steps

Signed volunteer agreement countersigned by Professor Brown, updated SEVP portal with Humanitarians AI Inc. as OPT employer, unique ID 241 assigned, compliance fully current.

Struggle Documentation

The hardest cognitive work this week was evaluating multiple projects against skills, constraints, and learning goals and making a defensible choice rather than a comfortable one. This was complicated by the Boyle project pause mid-week, which required reassessing the decision under time pressure with a SEVP deadline running. The pivot from Boyle to Mycroft required completing the full intake pipeline a second time — two articles, two CRITIQ cycles, two PM pitches — within the same week.

Tier Justification

Tier 1 — AI Fluency: Used CRITIQ peer review system across two full article development cycles. Used Addams for onboarding documentation.

Tier 4 — Judgment and Supervision: Project selection required evaluating multiple options against real constraints — time, skill level, sustainability alongside job search — and making a judgment call under pressure when Boyle was paused.

Tier 3 — Social and Ethical: Navigated the Boyle project pause, communicated the change professionally to HR and new PM, maintained compliance throughout a complex employer transition on OPT.

Unresolved

- Repository access to Project 29 codebase not yet granted
- Gru SDD process not yet completed — pending PM coordination and codebase review
- Contribution scope still being defined
- Project 29 confirmed as currently unassigned — no existing Fellow context to inherit

Next Steps — Week 2

- Obtain repository access to Project 29 codebase
- Attend Friday Mycroft team meeting for additional context and direction
- Begin active work — first task once access is granted is reviewing existing codebase to understand current state, identify gaps, and confirm hardening scope
- Complete Gru SDD once codebase is reviewed and scope is confirmed with Shradha

Compliance Notes

Item	Status
Volunteer agreement	Signed and countersigned — June 29 to July 31, 2026
SEVP portal	Updated — Humanitarians AI Inc. registered June 29, 2026
Unique ID	241
Unemployment days used	Approximately 11 of 90 allowed
Renewal deadline	July 24, 2026
